National Leader

RAW COTTON PRICE (APRIL '26)

₹60K+

Per Candy (Supply Squeeze)

Tamil Nadu District Wise Analysis				
2025-2026 Strategic Performance				
T3 Mission Active				
District Hub	Primary Specialization	Supply Chain Role	2025-26 Status	Growth Path
Coimbatore	Spinning Mills & Machinery	Upstream Production	High Cost Pressure	Technical Textiles Shift

Tiruppur	Knitwear & Garmenting	Downstream Export	Demand Recovery	Sustainable Apparel
Erode	Powerloom & Fabrics	Midstream Weaving	Stable Output	Integrated Clusters
Karur	Home Textiles	Downstream Specialist	Export Growth	Eco-friendly Fibers

CCI vs Non-CCI (Private) Impact

Analysis of price volatility and supply management.

CCI (Cotton Corp of India)
Holding 5.5M bales (early 2026). Acting as a stabilizer but mills report limited direct allocation access.

Non-CCI (Private Traders)
Artificial supply squeeze observed in April 2026. Private stocks concentrated, driving prices to ₹60K+ per candy.

Upcoming Forecast & Action Plan

MAY 2026	Peak Cost Management Mills facing liquidity crunch; strategy involves 25-50% production cuts in TN belt to manage inventory.
JUN 2026	CCI Stock Release Expectation of bulk e-auctions to ease domestic supply. Prices predicted to stabilize around ₹56K-58K.
JUL 2026	Monsoon & Sowing Analysis Critical monitoring of acreage shift. If farmers favor pulses, cotton supply for 2026-27 may tighten.
AUG 2026	Festive Demand Prep Knitwear sector (Tiruppur) to
